

# Skrewdriver, I Know What I Want

I've been sitting 'round here waiting for somebody's call  
I hope it comes off quickly 'fore the winter starts to fall  
We gotta get going quickly, and we got to come on strong  
I know just what I want, and I'll get it before too long

Chorus:

Before the winter starts to fall  
I'm taking heed of Europe's call  
Before the winter starts to fall  
I'm taking heed of Europe's call.

I've been waiting bleedin' soft, in my gloomy room  
Got no money to get out, now got to break out from this tomb  
I know exactly what I'll do, and baby you can't say I'm wrong  
I know just what I want, and I'll get it before too long

(Repeat Chorus)

solo

(Repeat Chorus)

Everyday is getting worse and I'm feeling down and blue  
You've got to realize the importance of this move  
Gotta break out from my thoughts, I've gotta try to carry on  
I know just what I want, and I'll get it before too long

(Repeat Chorus)

Europe's calling!
