

Skrewdriver, Justice

My knees feel weak as I'm dragged from the dock
My poor mother's screams numb me with shock
One by one, they lock us all away
Trumped up charges is the game they play

Chorus:

Call that justice, well it just ain't fair,
How much longer before you care
Call that justice from an alien judge
Jailed for fighting for the land you love

Stripped in a cell, you're shackled in chains
Lost all your dignity, but trying to keep sane
A degrading regime if you speak your mind
If you don't agree they'll give you time

(Repeat Chorus)

Call this democracy, the land of free speech
Equality and freedom is what they preach
Here's the reality, an alien state
Locking up patriots behind camp gates

(Repeat Chorus)

Jailed for fighting for the land you love
Jailed for fighting for the land you love
