

Skrewdriver, The Way It's Got To Be

Walk around the city and you hold your head up high
The sheep they'll try and drag you down with their aggression and their lies
Your life is just a struggle 'cos you're proud of your contry
But you just keep on fighting, that's the way it's gotta be

People try and put you down and stamp you to the ground
They don't seem to realize there's no way you'll back down
There is nothing they can do to step on you and me
'Cos we'll just keep on fighting, that's the way it's gotta be

solo

We'll just keep on fighting, that's the way it's gotta be.

They'll always put the blame on you and tell the public lies
But we'll be here a long long time 'cos the spirit never dies
We'll speak our minds, we'll fly our flags, we'll fight for victory
We'll just keep on fighting, that's the way it's got to be
Yeah, we'll just keep on fighting, that's the way it's got to be
I say, we'll just keep on fighting, that's the way it's got to be
