Skrewdriver, Time To Die

Live your life to the full, never say die
Keep on breaking rules up 'til the end
Don't let nobody, tell you what to do
In the end the decision's up to you

Live life, to the full
It'll soon be time to die

There are people high up there, trying to limit you
They believe they can run the people's lives
Don't let them grind you down, bring their towers to the ground
You'll never know if you don't go and try

Live life, to the full
It'll soon be time to die

New day, comin' soon, in time to save our lives
New day, comin' soon, it'll soon be time to die
New day, comin' soon, in time to save our lives
New day, comin' soon, it'll soon be time to die

Live life, to the full
It'll soon be time to die
