

# Skrewdriver, When The Storm Breaks

Democracy won't stand the test of time  
Unemployment and a rising rate of crime  
Will you stay or will you go?  
When the time comes you will have to know  
Are you gonna stand and fight for your race?

Chorus:  
When the storm breaks, which way will you go?  
When the storm breaks, you will have to know  
When the storm breaks, what you gonna do?  
When the storm breaks, can we count on you?

"Predictable" is what I once said to you  
Did you listen, no you laughed like a pack of fools  
Now you can see what fools you were  
You had the chance but you blew it  
Now you're gonna face the storm and fight in it

(Repeat Chorus)

All the papers, the radio and TV  
Never known them to tell the truth to me  
Only there to brainwash you their way  
Got to learn to ignore them everyday
