

# Skulker, Peace And Quiet

don't take that away from me...

i want the better life you promised  
it would come to me in the end  
you say it's not that far away  
from my hands

all i ever wanted was some peace and quiet  
don't take that away from me  
all i ever wanted was some peace and quiet  
you took that away from me

you said you were on my side  
where were you where were you  
all the nights i cried  
you've hurt me so  
to hear you talk that way you walk away  
all i want to know is where you are

all i ever wanted was some peace and quiet  
don't take that away from me  
all i ever wanted was some peace and quiet  
you took that away from me

all i ever wanted was some peace and quiet  
don't take that away from me...
