

SkulkPartitionRoot, Sequencing This Piano

Sequencing this piano, I'm sequencing my days
My heart ain't been true since that rainy day
Binary codes keep my secrets far from you
It's hard to keep straight when you've lost your own way

It seems to be true but don't seem to be right
It seems to be yours but don't seem to be mine

All access was denied, your access was denied
It seems to be true but don't seem to be right
All access was denied, and your sex is divine
It seem to be yours but don't seem to be mine

I keep standing at you with the same old words
You keep standing at me with the same old love
It seems to be true but don't seem to be right
It seems to be yours but don't seem to be mine
