

# Skunk Anansie, Bullets

You won't stop breathing  
He's always kind of get in your way  
His eyes are sieving  
He is settled up and ready to raid

So when you think about your life  
Think about the life you wanna save  
He won't stop breathing  
He's going to get you anyway

See the man with the girls  
And the bullets for his fancies  
A knife in the fight  
He knows nothing is going to stop him

Nothing is going to stop him  
Nothing is going to stop you either  
Nothing is going to stop him

The seeds are growing  
The fillers are for new girls to crave  
Life ain't worth living  
When godliness is better than pain

So when you think about your cause  
Think about the cause you want to save  
He won't stop breathing  
She's going to get you anyway

See the girls and the girls  
With no vision for themselves  
See the light in vulgar eye  
She know nothing is going to stop her

Nothing is going to stop her  
Nothing is going to stop you either  
Nothing is going to stop her

He won't stop breathing  
He's going to get you anyway  
Won't stop breathing  
He's going to get you anyway  
Won't stop breathing  
He's going to get you anyway  
You won't stop breathing  
He's going to get you anyway  
You won't stop breathing  
He's going to get you anyway  
You won't stop breathing  
He's going to get you anyway  
You won't stop  
Won't stop  
Won't stop  
Won't stop  
Won't stop  
Wow

See the man with the girls  
And the bullets for his son  
Cease a knife in the fight  
He knows nothing is going to stop them

Nothing is going to stop them

Nothing is going to stop you either  
Nothing is going to stop them
