

# Skunk Anansie, Can't Take You Anywhere

Lust is your favorite game  
It's the sound you make when you're in flame  
You call it love, with your eyes on fire  
Anyone alive fits your desire  
Honestly, I can't make it out  
I give in, wasted all my days on you  
And your fools, let 'em go

Can't take you anywhere  
'Cause you'll just do it again  
I can't take you anywhere  
'Cause you'll get messy with all my friends

You and your constant pace  
Never-ending bends, on your burnt off stains  
So in the town, 'cause I don't know how  
To protect him safe, regret so ashamed, ashamed (ashamed)

Can't take you anywhere  
'Cause you'll just do it again  
I can't take you anywhere  
'Cause you'll get lippy with all my friends  
I can't take you anywhere  
'Cause I'm not holding your hand  
I can't take you anywhere  
'Cause you'll get messy with all my friends

You'll messy, messy with my friends (oh-oh-oh, oh-oh-oh)  
Get messy with my friends  
Get messy with my friends  
Get messy with my friends  
Get messy with my friends (in and out, in and out)  
I can't make it out, I give in  
Wasted all my days with you  
And your fools, let 'em go

I can't take you anywhere  
'Cause you'll just do it again  
I can't take you anywhere  
'Cause you'll get lippy with all my friends  
I can't take you anywhere  
'Cause I'm not holding your hand  
I can't take you anywhere  
'Cause you'll get messy with all my friends  
Can't take you anywhere  
Can't take you anywhere  
Can't take you anywhere  
'Cause you'll get messy with all my friends
