

# Skyclad, Halo Of Flies

All you needed was somebody with a dream,  
A fool to crucify or to put upon a pedestal.  
Only dead fish float with the stream -  
Compared with you I seem like an extra-terrestrial.

I'm not your Robin Hood or Peter Pan,  
I won't play Jesus Christ - Santa Claus.  
I'll never pass for a superman -  
I'm just an effect trying to find a cause.

Tell me who am I, what am I and why am I here.

Is it because I'm flesh and blood  
That creature comforts feel so good?  
I give my body all it needs -  
It sleeps and eats and shits and breeds.

And if I keep my feelings stum,  
Hard luck - bibo ergo sum.  
Just trying to do the best I can  
Is a giant leap for this small man.

All you needed was somebody with a dream,  
A fool to crucify or to put upon a pedestal.  
Only dead fish float with the stream -  
Compared with you I seem like an extra-terrestrial.

You say that life is a miracle -  
I don't believe one word.  
Forgive me for being so cynical -  
From down here you all look absurd.

So are you happy now we all feel the same?  
Martyrs to the cause - boredom level nearing terminal.  
You're afraid to go against the grain,  
Next to you I feel like a shining intellectual.

James T. Kirk - Albert Einstein,  
Sitting safe aboard the Enterprise.  
If you're out there send me a sign -  
I need somebody to sympathise with.

Tell me who am I, what am I and why am I here.

Must I succumb to every urge -  
First feast and fast (then binge and purge).  
My spirit's strong - my flesh is weak,  
I laugh and cry and scream and speak.

And sometimes when i feel confused,  
I walk a path I did not choose.  
Watch my life on video -  
A private homemade horror show.
