

Skye Sweetnam, Makeout Song

Honey and hormones, you're holding my hand
Sugary slow-jams, making love on the sand
Well excuse me while I throw up
Take a second to interrupt
All this round about shit just sucks
I'll be blowing the candles out, lights on, it's wrong, but it's my

Make-out song
We've been holding back too damn long!
Well the sweet talk's great, but it's getting late
And I wanna just get it on!
This is my makeout song
Don't be getting your ego on
'Cause I like your lips but this foreplay kiss
Has been going on way too long
Get with my makeout song

Allergic to flowers, they wilt and they die
You jump in the shower, regardless that I'd
Much rather you just hang tough
A little bloody and beaten up
Let's get animalistic rough
We'll be ripping the clothes right off, backseat, not sweet, but it's my

Makeout song
We've been holdin' back too damn long
Well the sweet talk's great
But it's getting late
And I wanna just get it on
This is my makeout song
Don't be getting your ego on
'Cause I like your lips but this foreplay kiss
Has been going on way too long
Get with my makeout song

When you lay me down
On your pillow now
Sprinkle roses on the sheets
I get the creeps

You're finally touching me
And you realize I'm asleep
I'm asleep

Well excuse me while I throw up
Take a second to interupt
I was right and that shit just sucks
I'll be blowin' the candles out
Lights on
It's wrong

But it's my makeout song
We've been holdin' back too damn long
Well the sweet talk's great
But it's getting late
And I wanna just get it on
This is my makeout song
Don't be getting your ego on
'Cause I like your lips but this foreplay kiss
Has been going on way too long
Get with my makeout song

But it's my makeout song

We've been holdin' back too damn long
Well the sweet talk's great
But it's getting late
And I wanna just get it on
This is my makeout song
Don't be getting your ego on
'Cause I like your lips but this foreplay kiss
Has been going on way too long
Get with my makeout song
