Well there's a thousand guitars all over the land  
And a thousand drummers and a thousand bands  
And a thousand agents with their ears to the ground - Gimme Gimme  
They're all lookin' for the riff with the million dollar sound

Million dollar riff Million dollar riff Million dollar riff  
Goin' round and round  
Million dollar riff Million dollar riff Million dollar riff  
With a solid gold sound

It might take three notes it might take four - Oh yeah  
Or somethin' that sounds like a squeaky door - Oh yeah  
And you could be ridin' in a limousine - Oh yeah  
And have your face in every magazine

Million dollar riff Million dollar riff Million dollar riff  
Going round and round  
Million dollar riff Million dollar riff Million dollar riff  
We gotta get that sound

Meanwhile I was still searchin'

Million dollar riff Million dollar riff  
Well I worked it out before I went to bed  
But in the mornin' it went clean outa my head  
It's like winnin' Tatts but losin' the ticket  
You know the tune but you just can't pick it

It's going round and round

I gotta keep on searchin' till I find that sound
