

Skylar Grey, Show Me Where It Hurts

I want to heal you, it's gone
Wanna snap my fingers and it's done
Hard to believe it, you don't
Like a preacher man
Channeling god

Hypnotized by the music
The blue it starts to fade
Hypnotized by the music
The blue it fades away

Show me where it hurts
Let me be the cure
Sometimes life can be a curse
So just show me where it hurts
And I'll take away the pain

I want to face all your fears
Want to give you strength to persevere
I want to cry all your tears
'Til the rain is gone
Your conscience is clear

Hypnotized by the music
The blue it starts to fade
Hypnotized by the music
The blue it fades away

Show me where it hurts
Let me be the cure
Sometimes life can be a curse
So just show me where it hurts
And I'll take away the pain
away the pain

Take your bad days
Let me take your bad days
Take your sad face
Let me take your heartbreak
Take you far away
When you're in a bad place
If you're guilty
Let me do the time, babe
Someone do you wrong
Let me take the beating
Something break the skin
Let me do the bleeding
Take your bad days
Let me take your bad days
And all your bad dreams, yeah

Show me where it hurts
Let me be the cure
Sometimes life can be a curse
So just show me where it hurts
And I'll take away the pain
