

# Skyy, Let's Celebrate

Let's celebrate  
Loving each other, needing each other  
Let's celebrate  
Loving each other, needing each other

You got all of my life  
You got all of me  
And all we need is each other  
And that's all we need, all we need

You got me feelin' high  
Feel like I'm walking on clouds  
Don't ever wanna come down

Let's celebrate  
Loving each other, needing each other  
Let's celebrate  
Loving each other, needing each other

Let's celebrate {We want to celebrate your love}  
Loving each other, needing each other  
Let's celebrate {We want to celebrate your love}  
Loving each other, needing each other

Let's celebrate {We want to celebrate your love}  
Loving each other, needing each other  
Let's celebrate {We want to celebrate your love}  
Loving each other, needing each other

When you talk to me I know that is there  
I can feel the need, I know you care  
Don't you see, baby, you make me feel so good inside

I wanna celebrate every day that our love lasts  
You helped me forget about my past  
You might think I'm goin' insane, hey, baby  
Just break it the champagne

I wanna celebrate our love, oh, baby  
Just you and me  
We'll be together, baby  
Feel like I'm in love, baby

Come on and celebrate our love

Let's celebrate  
Loving each other, needing each other  
Let's celebrate

Let's celebrate (Feel like I'm walking on clouds)  
Loving each other, needing each other (Don't wanna, wanna come down)  
Let's celebrate (Love is in the air, love's everywhere)  
Loving each other, needing each other

Let's celebrate {We want to celebrate your love}  
Loving each other, needing each other (Let's celebrate our love)  
Let's celebrate {We want to celebrate your love}  
Loving each other, needing each other

Let's celebrate {We want to celebrate your love}
