

Slade, Find Yourself A Rainbow

Find yourself a rainbow, find yourself in that pot of gold
When you're there you're there to stay, anyway
You'll find yourself start changing - all you need to do is take a hold
Things get better day by day

And then you'll know that this time is the right time and the place to be
Pick the flowers, there's no hours, just remember April showers
Climb upon that rainbow, slide on down to that pot of gold
You keep smiling, come what may . . oo!

And then you'll know that this time is the right time and the place to be
Pick the flowers, there's no hours, just remember April showers

Find yourself a rainbow, a song a day and you won't grow old
You can wish your cares away

Open up your dreamland, it's so easy just to find the key
All your troubles turn to smiles, what to do is
Let go all your heartaches, it's as easy as being free
You don't have to wait a while
