

Slade, Pouk Hill

Did you see us? We were there standing bare with our arms in the air - Did you see us?

We were there standing still and the temperature was nil -

Did you see us?

Stood in a line. Dick took a shot and he got us. And he got us.

Did you help us? Sympathise with us? Please help we.

Pouk Hill is tall, always will be. Pouk Hill is older than you and me.

Than you and me.

You passed us by - not a second glance.

Bluer than blue - we were froze to the bone,

Couldn't wait to be home in the firelight. We were warm there.

As we sat by the fire getting higher and higher, really cool there.

Stood in a line. Dick took a shot and he got us. And he got us.

Did you help us, criticise us? Please help we.

Pouk Hill is tall, always will be.

Pouk Hill is older than you and me.

Than you and me.
