

# Slade, Till Deaf Do Us Part

Coming over to bend your ear -  
Till deaf do us part - Till deaf do us part  
Are you hearing it loud and clear -  
Till deaf do us part - Till deaf do us part

Keep a rockin' your times are tough -  
Let me know when you've had enough  
Hanging from the ceiling -  
The balconies are starting to shake

Coming over to slaughter you - Till deaf do us part - Till deaf do us part  
Do you want us to torture you - Till deaf do us part - Till deaf do us part

Are you feeling the frequency - All the speed and the energy  
Riding on their shoulders - The heavy boys are taking the strain  
We'll turn it up if you just specify  
Reach for the power - If you want it we'll supply

Till deaf do us part - Till deaf do us part - Till deaf do us part

Looking forward to tighten out - Till deaf do us part - Till deaf do us part  
Are you feeling the force and clout - Till deaf do us part - Till deaf do us part  
When you're aching and cracking up - Let me know when you've had enough  
Hanging from the ceiling, The balconies are shaking, There's a hurricane a-comin'  
And the window panes are starting to break  
Till deaf do us part - Till deaf do us part - Till deaf do us part
