

Slapp Happy, Let's Travel Light

Let's travel light.
We'll leave our bodies behind.
We won't need bodies.
We'll be all in the mind.
Let's fly by night.
Side by side in silence we'll climb.
And we'll keep climbing.
'til the end of time.
Our wavelength will be ultra-violet.
Save your strength, let me be your pilot.
This isn't virtual, it's real.
It'll change the way you feel.
I appeal with all my might:
let's travel light.
