

# Slapshot, Broken

If what I say  
When I say, when I say, I can't take it  
They're gonna take, gonna take,  
Gonna take you away from me  
If I'll be straight  
Don't know, don't know, don't know if I can take it  
Just can't let them take you away from me

Cause if they take  
If they keep you away from me  
You know I won't leave you alone  
If you take your love from me  
Gonna be, gonna be a broken, broken man

No I won't leave  
Won't leave, won't leave, won't leave without you  
I've been waiting, waiting, waiting across the street  
Where have you been  
Have you been, have you been, I know you've been  
With someone  
Just can't let them take you away from me

Cause if they take  
If they keep you away from me  
You know I won't leave you alone  
If you take your love from me  
Gonna be, gonna be a broken, broken man

I say I'm broken  
I'm really broken  
I say I'm broken  
I'm really broken, broken, broken

I say I'm broken  
I'm really broken  
I say I'm broken  
I'm really broken, broken, broken a broken man
