

# Slaughter, You're My Everything

Lookin' back on time  
Ooh we had it made  
Together we had the world  
Just you and I  
It begins to fade  
Now I spend my time  
Wishin' you were here with me  
Oh I wanna tell you now  
Wanna tell you now  
Just look into my eyes  
You are the one  
The one I need  
To make my dreams come true  
Oh you should know  
I love you so  
And I can't go on without you  
I walk the streets alone  
Starin' into space  
Ah you never told me  
Why can't we talk it out, oh  
All of these lonely nights  
I lie awake waiting for you  
Just waiting for you  
Won't you come back for me  
And let my fantasy come true  
Just me and you  
You know you make  
My dreams come true, yeah  
You are the one  
Anytime day or night  
You know it's alright  
with me, yeah
