

# Slaves On Dope, Drain Me

never wanted to finer things in life  
they never meant much to me  
i only wanted to be the best at what i did and i am

You took all of my life from me  
and you drained me  
you took all of my life from me  
and you drained me

take it away from me  
you take it away from me

never wanted to argue  
and i wish we never would have started  
i only wanted for me whats fair  
and should you care if i dare

you took all of my life from me  
and you drain me  
you took all of my life from me  
and you drain me  
you took all of my life from me  
and you drain me

you drain me  
you drain me

never wanted to argue  
and i wish we never would have started  
i only wanted for me whats fair  
and for you to be there

you took all of my life from me  
and you drain me  
you took all of my life from me  
and you drain me, drain me

you drain me  
you drain me

never wanted to argue  
and i wish we never would have started  
never wanted to argue  
and i wish we never would have started

take it away from me  
you take it away from me  
you take it away from me  
you take it away from me
