

# Slaves On Dope, I Can't Die

The shot that took you out  
Open wide  
Put your foot in your mouth  
It stole your secrecy  
Lock the door  
Throw away the key

Don't deny this  
Know you want to try this  
Take away your blindness  
With your narrow-mindedness  
Help me find that pot of gold  
Lighten the load

Green eyes that satisfy  
Carry the weight of the land to the sky  
Meanwhile, they cry  
I can't die

Took your breath away  
Left you winded  
With nothing to say  
It's easy to proceed  
When you're good  
Faith is nothing but greed

Don't deny this  
Know you want to try this  
Take away your blindness  
With your narrow-mindedness  
Help me find that pot of gold  
Lighten the load

Green eyes that satisfy  
Carry the weight of the land to the sky  
Meanwhile, they cry  
I can't die

I can't die

The shot that took you out  
(Open wide, put your foot in your mouth)  
It stole your secrecy  
(Lock the door, throw away the key)

Don't deny this  
Know you want to try this  
Take away your blindness  
With your narrow-mindedness  
Help me find that pot of gold  
(Listen to me)

Green eyes that satisfy  
Carry the weight of the land to the sky  
Meanwhile, they cry  
I can't die

Green eyes that satisfy  
Carry the weight of the land to the sky  
Meanwhile, they cry  
Meanwhile, they cry

I can't die
