

Slayer, Hardening Of The Arteries

(Lyrics Hanneman; Music Hanneman)]

Fear runs wild in the veins of the world
The hate turns the skies jet black
Death is assured in future plans
Why live if there's nothing there

Spectors of doom await the moment
The mallet is sure and precise
Cover the crypts of all mankind
With cloven hoove begone

[Chorus:]
Sadistic minds
Delay the death
Of twisted life
Malicious world

The crippled youth try in dismay
To sabotage the carcass Earth
All new life must perish below
Existence now is futile

Decrepit breath, vile in its stench
A world in decay
Transgressor is as one

[Chorus]

[Lead - King, Hanneman]

Convulsions take the world in hand
Paralysis destroys
Nobody's out there to save us
Brutal seizure now we die
