

# Slayer, Human Disease

Obsessive acts of hate, abductions and massacre  
Breeding emotion subvergence, when the living become the dead  
Home invasion, private party of thieves  
Blood spilled, material thrill  
A sign of the times  
Self-destruction, a terminal mind  
Sadomasochist a high profile, trained in apathy  
Intellect repulsed, your torn, and death will have a face  
Ravage passion, a theme for the 90's  
Tormented deviants, when fucking becomes psychotic  
Domesticated rage, actions of desperation  
A struggle of inner-killing, a sign of the times  
Self-destruction, a terminal mind  
Strangled to death, little miss beauty queen  
With a fractured head, so it seems  
America's little royal miss, raped of innocence  
Daddy's little girl to the end  
Seduction and torture, sex of the 90's  
Mass murders and random violence, when the living become the dead  
Father killing mother, daughter, son suicide pact  
Butchers black 24/7, a sign of the times  
Self-destruction, self destruction  
A Human Disease  
Jealousy killed the queen  
Sliced her neck from ear to ear  
Money and power set the king free  
A jury of his peers let him be  
Jealousy killed the queen  
Sliced her neck from ear to ear  
Money and power set the king free  
Shatter will in retribution  
Life, watch it die, life ripped in half  
Drastic pain a symphony, screams  
No escape your time to die  
Hardened steel against your head, it weights  
Self-destruct remain insane  
(Repeat second verse)  
Death will have your face
