

Slayer, Silent Scream

(Lyrics: Araya; Music: Hanneman, King)

Nightmare, the persecution
A child's dream of death.

Torment, ill forgotten
A soul that will never rest.

Guidance, it means nothing
In a world of brutal time.

Electric, circus, wild,
Deep in the infants mind.

Silent Scream
Bury the unwanted child.
Beaten and torn
Sacrifice the unborn.

Shattered, adolescent [sings: another child]
Bearer of no name.

Restrained, insane games
Suffer the children condemned.

Scattered, remnants of life,
Murder a time to die.

Pain, sufferaged toyed,
Life's little fragments destroyed.

Silent Scream
Crucify the bastard son.
Beaten and torn
Sanctify lives of scorn.

[Lead: King, Hanneman]

Life preordained
Humanity maintained.
Extraction termination
Pain's agonizing stain.

Embryonic death,
Embedded in your brain.
Suffocation, strangulation,
Death is fucking you insane.

Nightmare, the persecution
A child's dream of death.

Torment, ill forgotten
A soul that will never rest.
Innocence withdrawn in fear.
Fires burning can you hear
Cries in the night.
