

Slayyyter, Miss Belladonna

I kiss him like poison
Sink in never let him go
He buys me roses
Needs me when he's all alone

Belladonna, electrona, glamorous in me
Donatella, money spender, drink some more champagne
Poison, flower, love, and power make him wanna stay
I make him wanna stay

The way that I dance
Like deadly nightshade
Eyes turn black
When his heart breaks

Miss Belladonna
I call him up whenever I wanna
Lipstick is red and my bag is Prada
He lives for love and I live for drama
Miss Belladonna

I'll steal your heart with my eyes
Hot for your love in the night
Tell me you're ready to die
Ready to die

Belladonna, electrona, glamorous in me
Donatella, money spender, drink some more champagne
Poison, flower, love, and power, make him wanna stay
I make him wanna stay

Euphoria hurts
Love makes you blind
Surrender your heart
In Club Valentine

Miss Belladonna
I call him up whenever I wanna
Lipstick is red and my bag is Prada
He lives for love and I live for drama

Miss Belladonna
Miss Belladonna
