

# Sleater-Kinney, What If I Was Right?

what if i was right?

you tell me not to worry about the simple

(sounds like: crack of dawn)

it'll go away by morning

its the usual twisting turning (sounds like: gold and plenty head)

theres no place to go from here

what if i was right?

i've been waiting here

my life

what if i was right?

(sounds like: my was fella) finally a lie

i could put my place, man get no rest

run through fields of glory

(sounds like: the party would be thrown together in thee faithfully)

find the roots in everything

what if i was wrong?

(sounds like: give up everything in for my song)

what if i was wrong?

(sounds like: broke my indescion

broke it all along)

all along inside i was ready for it (i was ready)

all along outside i was waiting for it (i was ready)

all this time i was ready for it

time for this to end

(sounds like: i've had hestitate to play for why?

just a final test

i knew ever coming on it all along)
