

# Sleeper, Swallow

This little creature  
Lives in your wardrobe  
He's seen you fake it  
He's seen you naked  
He's been through your pockets  
And sucked out your secrets  
He stole all your best lines  
Seems just like the old times  
There  
He comes  
She swallows  
That's no lover  
That's a vanity thief  
That's no lover  
That's a vanity thief

Seen through your good shoes  
Rubbed off your red lips  
He sits like a fatman  
Curled round your thin hips  
He messed up your bed sheets  
Sucked up your secrets  
He stole all your best lines  
Seems just like old times  
There  
He comes  
She swallows
