

# Sleeping With Sirens, Complete Collapse

I woke up from a dream  
Into this waking nightmare  
I'm somewhere in between  
I can feel it in my bones  
I'm my own worst enemy  
But I think I kinda like it  
What's wrong with being me?  
I don't know (I don't know)

Sometimes  
I don't wanna feel nothing on the inside  
I don't wanna feel nothing unless it feels right  
Probably why I'm always outta control  
Tryin' to find real life  
Tell me why you wanna play it on the safe side?  
Heard the road to hell is paved in a straight line  
But it's better the devil you know  
Than the devil you don't

Is this reality?  
We stare through shattered lenses  
There's nothing here to see 'cause we all die alone  
Hold my hand above the flame  
To bring me to my senses  
What's it like inside my brain?  
You don't wanna know (wanna know)

I woke up from a dream  
Into this waking nightmare  
I'm somewhere in between  
I can feel it in my bones  
Is this reality?  
We stare through shattered lenses  
There's nothing here to see 'cause  
We all die alone

The devil you know is the devil you don't  
But it's better the devil you know  
Than the devil you don't
