

Sleepthief, Kiss To Savor

A kiss to linger
Your kiss I savor
You're like no other
Your kiss I savor

Searching, I hear it call me
Knowing it's you I hear
The sweet embrace of you near
Spring night descends it's sweetness on me
This late night stroll leading
With one thought on my mind

A kiss to linger
Your kiss I savor
You're like no other
You make heaven appear

My feet assured with every step
Night air whispers my unsaid
I'm at your door and I shouldn't have left
Are you mine?
I'm closer than I've ever been
I'm here and I'm leaning in
With one thought on my mind...

Sweet embrace it draws you near
I surrender all my fears
