

# Sleepthief, Tenuous

A single moment, before the call that drew you to the sea  
A single fragment of a loss that's buried deep in memory

(Chorus)

In stillness, no comfort  
In silence, awash in fervent dreams  
In stillness, I see you  
Returning back to me

A shrouded echo. Resounding waves that fall upon the shore  
I feel you moving to a place where I will see you nevermore

(Chorus)
