

# Sleepthief, You Did A Good Thing

I'm still here

She was your childhood friend  
All of your heart you gave her  
And though the times have changed her  
She'll always be home

(Chorus)

Losing yourself, you did a good thing  
Truth never hurt, you did a good thing  
In spite of yourself, you did a good thing  
Truth will be told, you did a good thing

I'm still here

She was your childhood sweetheart  
(so understand)  
All of this trouble you feel  
(time can't take her from you)  
The time won't take her from you  
She'll always be home

(Repeat Chorus)

You did a good, good thing

And I'll miss you for the longest time  
Our lovely view was the best I've known  
Tears on my face have fallen so  
So long there can be no harder way
