

Slick Stunna, Movement

the space between our bodies has been corrupted
the people that make the laws and rules for us
they don't give a fuck about us
our hearts are being bought
our minds are being washed
we must interrupt
we must interrupt
we are just a moment away
look what we're doing to the atmosphere
it's no wonder the kids drug themselves to get out of here
this perpetual motion is killing our emotions
so the rich can make a dollar
make another dollar
we are just a moment away
if it's not everyone
then it will be no one
my brothers and sisters
