## Sloan, Rag Doll

(P. Pentland/Sloan)

I see you when you sleep And I wonder what you dream So I open up your eyes And inside I see you Fall around Fall around Like a rag doll

Suffocated by your breath Sucked into the falling crest Of the white wave that you ride And inside we both Fall around Fall around Just like rag dolls

On a beach of bleached white sand The soothing motion of your hand Pushes me to wonder why Sometimes we both Fall around Fall around Just like rag dolls
