

# Sloan, Something's Wrong

I got the feeling that there's something wrong  
But I can't put my finger on it  
This is a sense it won't last too long  
And now I can't feel my fingers  
Did you have to anyway  
Or could you save it for another day  
If I was you I'd want that feeling back for good

I got the feeling that there's something wrong  
I got the feeling that there's something wrong
