

Sloan, Sugartune

I wrote for you
This sugartune
To help you through
What you've gotta do
When you're on the ground
And keep fallin' down
Remember how I made this sound
Sound

When you're on your own
Feeling all alone
Remember that
You've always got a home
I'm outside
Tryin' hard to hide
The fact that I'm scared
To be by your side

I know when everybody's got one
You want one too
I know when everybody's got one
You want one too

I know when everybody's got one
You want one too
I know when everybody's got one
You want one too

I wrote for you
This sugartune
To help you through
What you've gotta do
When you're on the ground
And keep fallin' down
Remember how I made this sound
Sound
