## Sloan, Sugartune

I wrote for you
This sugartune
To help you through
What you've gotta do
When you're on the ground
And keep fallin' down
Remember how I made this sound
Sound

When you're on your own Feeling all alone Remember that You've always got a home I'm outside Tryin' hard to hide The fact that I'm scared To be by your side

I know when everybody's got one You want one too I know when everybody's got one You want one too

I know when everybody's got one You want one too I know when everybody's got one You want one too

I wrote for you This sugartune To help you through What you've gotta do When you're on the ground And keep fallin' down Remember how I made this sound Sound
