

# Sloppy Meateaters, Impossible

I came into this a poor man and I'll leave just the same  
I am disgusted sad and angry and I feel so ashamed  
But you're forgetting one thing, you're forgetting one thing  
I made you I'll break you

Complication - I'm not leaving  
This Operation - will leave you screaming  
Goddamn Impossible  
Way of life you're living boy  
You better run you better hide  
You better learn to decide  
Surprise are you flattered by their little lies  
Or do you

People say I have changed well I hope I have changed  
A moment of clarity I have gained  
A lifetime of darkness I move to the light  
And with this hope I will survive  
I believe and I believe  
And forever I will Believe
