

# Slow Coming Day, Captivated

You're stealing my heart again  
Through every single move you make  
You conquer all of me  
With every glance of your blue eyes

I am helpless for you  
I am helpless for you

Hear the sound of my heart  
Pounding in my chest..for you

I am helpless for you  
I am helpless for you

I miss you more  
More than words could describe  
I miss you more  
More than words could describe
