

Slowdive, Bleed

and when the star should falls away
i thought i saw you
it's falling down most everywhere
i thought i saw you bleed
i saw the streets today
took it all and walked away
i soar it all i saw the day
takes it all and leaves me
i saw the streets today
took it all and walked away
i soar it all i saw the day
takes it all and leaves me
wasting life on a misery
i come inside i just walk away
