

# Slowdive, kisses

Tell me your the best thing,  
I tell you that's what you need  
Rolling on those good looks  
Maybe it's just enough  
I know you dream of snowfields  
Floating high above the trees  
Living for the new thing  
Sometimes the new won't do

Kisses born desert sun

Maybe there's a car, there  
Driving away from here  
Taking all the ghosts  
The hurt  
Well everything starts anew  
Tell me what you need  
What's right  
Whatever is just enough  
Is Living with the truth  
A start  
Maybe it's just enough

Kisses born desert sun
