

Slowdive, Sing

(sing where the other boys can't watch you dance)
hear you call my name, see you in my mind
watch you fall away, i know
whats in your mind, calling from behind
see you fall away, i know he's here to stay
who are you, where are you, in time
love is here to stay, you call away, i wait
i know that youre listening, to everything i say
but i know that you want to see
for me im not the way
watching what you do,
and i know that its not the way to.
