

# Slowmotion Apocalypse, Portrait Of A Lie

Rivers of blood  
And tears will feed your fears  
No matter how long it takes  
I will break every one standing in my way  
I will show no mercy  
If you spit on the way I am  
If you dare you will pay  
With your life

'Cause of the passion I feel  
I can't forgive your betrayal  
You don't have the right to shut  
My voice in the name of your truth

The time when I awake  
The demons inside my heart  
It will hurt like a blade inside your neck  
It's too late to repent  
No remorse will stop my hand  
I will look in your eyes  
Watch you die

I'm the avenger  
Hunting you  
I raise my metal axe and I  
Kill you  
This is the end  
You can't stab me twice  
I'll cross an ex  
On your fucking face  
You liked my money  
So you shook my hand  
No respect  
For my esteem  
Don't try to tell me  
How I should behave  
I know what I want  
I know my way  
Don't push me too far  
On my evil side  
Careful with what you handle  
This is dynamite  
I'm sick  
I've had enough  
You eggheads  
A pathetic bunch  
Pseudo-intellectual-fashion-driven-brains  
Stop your claims of dogma  
Or just fuck-off and die  
You're the portrait  
Of another lie  
You're not  
You're not God  
You're not  
You're not a fucking god!  
The self-portrait  
Of another lie  
The self-portrait  
Of another lie  
I can't forgive your
