

Slowride, Money

you got money
you got freinds

but your friends do
not deserve you
and your money
hasn't earned you
does any
of this concern you
cause you're actin' like it do

you got habits
don't we all?
but yours suck -
don't they all?

but your habits
won't desert you
when they're present
they'll observe you
and when they serve you
you become you
and we love you like we do
