

# Slurpymundae, In Full View

I've got the time so let me intrude  
If you got the patience let me introduce myself  
And if any of you can walk in these shoes  
And learn how to live and not have to choose  
Between the two

You were like a brother to me  
Oh, I only left because you could see  
That often we're our own enemies

And I remain  
Left unchanged  
Though everything goes by so fast  
And I see through you  
The things you do, they do amuse

You were like a brother to me  
Oh, you only left because you could see  
That often we're our own enemies
