

Slurpymundae, Undecided

I've seen all I need to see
And I've known the fact you cheated me
And I've seen everything you've seen (yeah)

And fresh thoughts always seems to be
It's not what's inside of me
I can't touch anything you've seen (yeah)

She waited
Love never came
Oh and she waited
Love never came

And I've seen all I need to see
I've known the fact you cheated me
And I've seen everything you've seen (yeah)

She waited
Love never came
Oh and she waited
Love never came

She waited
Love never came
Oh she waited
Love never came
Undecided {x4}

I've seen all I need to see (Undecided)
I've known the fact you cheated me (Undecided)
I've seen everything you've seen (yeah) (Undecided)
