

Slut, Say Yes To Everything

Pull out the bags, just sit down and relax
It won't last forever
Calm down a bit, everyone's hypocrite
It won't last forever
Spare us a no, it's so easy to go
It won't last forever
Here comes the point where we're maximum-joined
this won't last forever

Say yes to everything,
...thing,
...thing,
...thing

It's been very good and it's so very good and it's already good, already good:
...like it is, like it is, like it is
It's been very good and it's so very good and it's already good, already good:
...like it is, like it is, like it is
It's been very good and it's so very good and it's already good, already good:
...like it is, like it is, like it is
It's been very good and it's so very good and it's been very good, it's been very good:
...like it is, like it is, like it is
It's been very good and it's so very good and it's already good, already good:
...like it is, like it is, like it is
...like it is, like it is, like it is, like it is

(We had less than an hour to reach you all)

Just say hello to the friend and the foe: they won't last forever
Just say hello to the friend and the foe: they won't last forever
God bless everyone who got lost on the run: they won't last forever
God bless everyone who got lost on the run: they won't last forever
