

Small Faces, You Better Believe It

If somebody asks me if I love that girl
You better believe it (You better believe it)
If somebody says she's a whole lot worth
You better believe it (You better believe it)

Since I saw that girl I can't get away
Now I gotta see her every day
You better believe it (You better believe it)
Said you better believe it (You better believe it)

Do I get a feeling when I kiss her goodnight?
You better believe it (You better believe it)
Is she on my mind whenever she's out of sight?
You better believe it (You better believe it)

I'm so happy when my girl's about
She can stop the rain and make the sun come out
You better believe it (You better believe it)
Said you better believe it (You better believe it)
Come on childre alright

You better believe it (You better believe it)
I said you better believe it (You better believe it)

Do I get a feeling when I kiss her goodnight?
You better believe it (You better believe it)
Is she on my mind whenever she's out of sight?
You better believe it (You better believe it)

When my baby looks at me you know she starts to flame
If I loose that girl I'm gonna go insane
You better believe it (You better believe it) alright
I said you better believe it (You better believe it)
You better believe it (You better believe it)
You better believe it (You better believe it)
