

# Smash Mouth, Defeat You

Born is a human with a kung-fu spine  
Equipped with a detector of whats on your mind  
You jive you shuck you bob you weave  
And when you're down you've got something up your sleeve  
And you've got it good as bad as it gets  
You make your own incisions that come with regrets  
You're in it to win it and make every minute count  
You put it all together and dish it out  
Hey I know where you're from  
It makes it that much nicer to meet you  
Hey I know what you've done  
It makes it that much better to defeat you  
All that knowledge all those skills  
All the gas it takes to get up top of the hill  
And while the other try to take your spot  
You wanna make them stop but you gotta make them stop  
Would you do anything whatever it takes  
Jacks in the road yeah fix the breaks  
It the instinct that's got us locked up tight  
And it's the madness that's keeping us up all night  
Chorus  
It's what we are It's what we are It's what we are  
Born is a human with mechanics to win  
Born is machine with a human tucked in  
You jive you shuck you jab you stick  
You're calling out for help when it gets too thick  
Your honor your honor its not me  
It's the invisible visible evil powers that be  
Untraceable insatiable having to feed  
Yeah you cry when your wounded and you laugh when they bleed  
Chours
