

# Smash Mouth, Fun

Its 2003

Where do you wanna be

Back in 42 or 1970

And maybe we should just take a good look around

I don't get why the planet is so upset

Don't do something you might regret

I'm telling you it's starting to get in the way

CHORUS

Hey!

Let's have some fun while we're still young

Turn up the sound 'til your feet leave the ground

Yeah!

Let's drive the car 'til we've gone to far

Then we'll pick up the peices

And push it back home

Let's start with Liberty's broken heart

N.Y.C. could never be torn apart

It could be one world not three

Girlfriend kiss his very soul

And boyfriend tell her she's beautiful

And family man say baby mamma it's O.K.

CHORUS
